

FAST FACT 2024

ABOUT DAB

For over 45 years, DAB has been a main player in the sector of the technologies for the movement and management of our most precious resource, water. DAB offers technological solutions capable of ensuring reliability and efficiency, and to optimise energy consumption in domestic and residential, civil, agricultural and irrigation applications.

“Simple and efficient solutions are the biggest types of innovations.

The technology of our products speaks the same language of those who buy or use them. This is our strength.”

Founded: December 1975
Headquarter: Mestrino, Padova (ITA)
Total Turnover 2024: € 425.000.000
People: 1750 in the world

- ALMA 2009

OUR SOLUTIONS

RESIDENTIAL BUILDING SERVICE

DAB produces reliable products, technically advanced, easy to install and efficient, ensuring high energy savings in the following domestic and residential application sectors: heating and air conditioning, water supply and pressurisation, irrigation and gardening, use of rain water, draining, collection and disposal of waste water, circulation and filtration of swimming pool water.

COMMERCIAL BUILDING SERVICE

DAB develops technologically advanced solutions, highly efficient and reliable, for many commercial application sectors: from heating and air conditioning circulation systems, to water supply and fire-fighting system pressurisation, to the disposal of waste water.

AGRICULTURE AND IRRIGATION

DAB offers pumping solutions for the extraction of water from the subsoil for agricultural and irrigation purposes. High quality submersible pumps and motors, reliable and capable of guaranteeing high energy efficiency. A wide range to meet the needs of any types of systems, up to industrial and aqueduct applications.

OUR SERVICES

DTraining is DAB's training institute for spreading and sharing the company's know-how in the world

of water distribution technologies, now even better with the DLearning platform for online training and webinar programmes available in six languages, with on-demand and live training services.

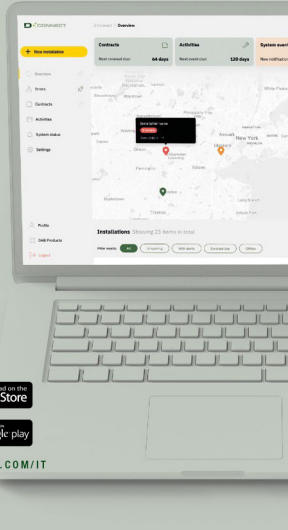

DService offers pre- and post-sales technical consultancy with an extensive network of support

centres throughout Italy. The highly qualified personnel assist the customer in selection of the product best suited to requirements, arrange for installation with operating tests, and offer specific support in all matters.

CARING FOR THE FUTURE

We care for the future by promoting a culture of growth and innovation based on people, technologies and the environment.

As a Group, we are committed to building a culture of sustainability daily that can provide everyone with greater awareness and a sense of belonging to a common cause with no corporate boundaries but concerns the future of us all: the care of our planet.

RESPONSIBILITY

We believe that the safeguard of the environment is possible not only through eco-friendly products, but most of all thanks to responsible individuals. This is why we try to come up with reduced consumption products, working on projects with a low environmental impact, selecting partners and suppliers consistent with our ethics, and implementing green codes of conduct to increase the awareness in all those working at DAB of the importance in reducing waste and in respecting the environment, starting from the most trivial daily activities, both within and outside the company.
